## DETAILED ACTION

This office action is in response to the amendment filed April 25, 2005. In accordance originally presented claims 1-20 have been canceled and new claims 21-36 are presented.

### *Election/Restrictions*

1. Newly submitted claims 21-36 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the subject matter of the new claims 21-36 is related to a system of forming an optical waveguide, this system having a source, sink, 1<sup>st</sup> and 2<sup>nd</sup> supports, a platen, and a stage (classified in 65/483+). The originally claimed invention is distinct since the original invention is related to a method of forming an optical waveguide (classified in 65/387) and an optical waveguide with an integral lens (classified in 385/33).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-36 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The reply filed on April 25, 2005, is not fully responsive to the prior Office Action because of the following omissions or matters: the amendment filed on April 25, 2005, canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive, as there are no pending claims. (MPEP § 821.03).
3. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer,

Art Unit: 2874

within which to supply the omission or correction in order to avoid abandonment.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

*Conclusion*

4. Please see "Comparison Chart and Forms" (MPEP § 706.07(h) (XIII)). In particular, see terms under lines 4 and 10 of this chart. It is noted that a CPA must be filed to enter the new claimed invention 21-36, as any different invention cannot be entered after the filing of an RCE.
